Wagner	Martin	Waldleufer	martin.wagner@fau.de

Goals	Experience Agile/Scrum Achieve our defined project mission Develop software that is able to visualize the carbon footprint of some machinery / production environments (scenario) under different circumstances (calculations) Design a valuable product with functions that the user really uses
Meeting norms	Inform the others if you can't attend Everyone shows up on-time We do not interrupt each other Attend all of the meetings
Working norms	Everyone contributes regularly We value quality over quantity Lines of comments (well documented) > Lines of Code Recommendation: Visual Studio Code Testing/Verification (Unit Testing)
Coordination norms	Scrum tools People choose what they want to work on, unwanted work gets split up over all team members equally. (managed by Scrum Master) Put everything non code related to the google drive folder
Communication norms	Every job has a responsible person Email / Github for important / Code and Product related things WhatsApp (organisational) Protocol of the Meeting (in google drive, like a summary) - writing meeting minutes - documenting decisions We check Email at least once a workday
Consideration norms	All important decisions made in the team meeting Possibility of a emergency meeting with at least 1 PO, 2 SD We discuss disagreement openly We vote for a final resolution
Cont. improvement norms	Using the kanban system to track the teams progress Using the continuous demo releases to track the improvement of our system
Rewards	To celebrate the achievement of a goal we will meet for a beer (or maybe a cocktail) if possible in person otherwise online
Sanctions	You must raise clear violations of the team contract We apologize by writing a 4 line poem about how one will improve themselves (and the meaning of life) and share it with the team!
